Policy for Sanitization of TALENT-KEYHOLE Materials

1. The COMOR approved COMOR-D-16 on the above subject as amended. It is issued in its final form as COMOR-D-16/1.

Missile Target List

2. The Air Force proposed that the COMOR assemble a list of suspected missile targets (regardless of the validity of the reasons for the suspicion) to ensure that when satellite photography over the USSR is available the PIs will have these suspected sites called to their attention and thus be able to confirm or deny them as missile sites.
